Question. Has the Treasury Department settled the acount of dishursements paid to the men? . They have.

Liest Johnson re-called and produced a record of the proceedings of the Court Martial held at Honolulu in the case of Peter Sweeney. The Judge Advebate read-

h That the Court having found Peter Sweeney guilty, do adjudge him to received 24 lashes on his bare back, at such time and place as the Commander of the squadron may dreet."

The charge was desertion and disobedience of orders. The witness here stated he could not find the order for panishing Peter Sweeny, but to the best of his knowledge and belief he returned it to Lieut. Wilkes.

At the request of the Judge Advocate the witness gave testimony of the sentence, and then stated that Peter Sween y was placed on a small boat and lashed to the thwaats, his arms in irons, his bag and hammock passed into the bort. the collar of his frock was cut off, the boat was then taken in tow by one of the ship's boats and after making a sweep round the hardor landed the prisoner on the beach among the satires. I think the boat was towed stern foremost. It was a little boat that was brought to go ashore in shoal wa ter with-about 6 feet long-commonly called a little dinggy. I can't say provision was made for his return to the United-

Unsation by Hamilton. Was that in the order of Lieut Wilkes!
Witness, I thought the court asked me what I did after the punishment was inflicted.
Quest. Was that proceeding, towing her ashore, directed
by Lieut Wilkes in pursuance of the order of the Court

Martial! Hit was not; and I had nothing to do with carrying wit. It was not; and I had nothing to do with carrying out the proceeding of the Court Martial.

Lieut. Sinclair, re-called. I saw Peter Sweeney after he was ashore. He asked what he was to do with himself. I had him to go to the Consul. I don't know that he had any employment. I do not know if any provision was made for his return to the United States.

Lieut Hudson recalled—Question. State if you received them there I lieut. Without head, 19th Mart 19th received.

Lieut Hudson recuied — question. State it you received orders from Lieut. Wilkes, about 12th May, 1840, not to allow Lieut. Pinckney to leave the ship.

Witness. I don't think that was in the order, sir.

Question. Was Lieut. Pinckney sent off from the shore at that time Witness, I think he was; I think Midshipman Blair was

Witness, I do not renember; I may have done so. Lieur. Wilkes told me he had sent Lieut. Pinckney, on the following morning, that it was Lieut. Wilkes's order that he was not to leave the ship?

Witness. I do not renember; I may have done so. Lieur. Wilkes told me he had sent Lieut. Pinckney off because he turned his back on him while on shore.

Urossexumined by Hamilton.—Question. When did the Peacock leave the Fiji group?

Anner. On the 12th of August, 1840.

Question. Did you ever forbid Lieut. Pinckney from go-

ing on shore while he was under arrest?

Assure. No; if he had applied to go a shore he might have gone. There was very little opportunity of visiting the shore, as we were almost continually under weigh, beating about among the reefs. While lying in port all the s and boats were constantly employed on surveying We were five or six days at Overlou; at Sandal duty. We were five or six days at Overlou; at Sandal-Wood Bay not quite so long; at Mudwater a little longer. I may possibly be wrong, as I speak from recol-By Com. Biddle.—The privileges of Mr. Pinckney while

der arrest were the same as those of the other with the exception that he might not come on the quarte deck. I do not think the confinement to have been severe or oppressive; and the privileges granted to officer, under arrest were greater than in any ship I've been in. He might go ashere when he asked.

Cross-examined by Hamilton.

Cross-examined by Hamilton.
Question. Was there any reason for Mr. Pinckney's not going ashore except the want of inclination?

Answer. Yes, the want of application. I was not going to say to him, Mr. Pinckney, you had better go ashore.—
When he made the application it was granted.
Question. Have you your journal?

Auster. I have.

Question. If an officer is under warrant in a sloap-of war, is he not obliged to go forward among the men on the gangway or remain below?

Assect: Not in the Peacock: she was frigate built—had

agun and a spar deck.

Mr. Counthric called and examined. I was on the starboate quarter of the Vincennes when the Flying-Fi-h came up on her-lee quarter, at some 60 or 80 yards distant. Lieut Wilkes builed her and ordered Lieut Pinckney to heave to she did not heave to, but kept on abreast of the gangwa and Lieut. Wilkes again bailed and directed Lieut. Pinckne to heave to. In a few seconds after he hailed a third time and said, "why den't you heave to, sir. Heave to immediately." When he hailed the second time, I remarked to ately." When he halled the second time, I remarked to some one, it he heaves to note we shall be toul of one another immediately. When the order was given a third time the Flying-Fish was hove to and shot up in the wind under our bows, the ship forging ahead at the same time. As she was passing under the bow of the Vincennes, the Flying-Fish just cleared her, the flying jib-boom of the ship just clearing the main rigging of the schooner. When she hove to Lieut, Wilkes walked forward in a hurry and I followed, therefore to see some collision. As I came on the foreto Lient. Wilkes walked forward in a hurry and I followed, expecting to see some collision. As I came on the fore-castle Lient. Wilkes was haiting the schooner through the trumpet with a very excited manner, stamping his feet on the deck: "What do you mean, sir? What do you mean by such conduct as this? I nover saw anything like it in my life?" Lient Pinckney replied: "I hove to in obedience to your orders, sir." Lieut. Wilkes then stamped with the stamped with his feet and halled again: "God damn it, sir, I never order ed you to heave to under my bows."

Here some member of the Court asked what rank the witness bore in the Navy and was told he was one of the scientific corps. Cross examined. Have you had any difficulties with Lies

Wilkes?
Witness. If the Court will show the bearing of the question or allow me to state the causes, I shall be happy to do it, or I hope the Court will allow me to explain. ocate. You must answer the question sir

Judge Advocate. You must answer the question sir Witness. Well then, there have been difficulties, but I trust that whatever may have been those difficulties it would not alter my testimony of the facts while under aath. The witness was proceeding to make further explantions when he was stopped by Mr. Hamilton.

He again addressed the Court, and said that he wished to state, if not in evidence to justify himself, that all the difficulties between himself and Lieut. Wilkes were occasione by Mr. W. assuming to have control over his scientific duties, whichhe was not inclined to submit to.

The witness stated in answer to a question from the Court, that he was one of the Naturalists attached to the scientific

The Judge Advocate here offered three letters received by the Nagy Department from Lieut. wilkes, received by the shi 'Awashanks,' respectively dated the 15th, 17th and 19th of September, 1359. That ship, it had been proved, sailed on the 23d of September, and Lieut. Pinckney's communication was forwarded to Lieut. Wilkes between the 16th and the 20th of the same month. Mr. Hamilton said that they should contend that these let

ters were on the employment of the squadron, and that Lieut. Wilkes was engaged in his necessary and official duties. Here the Judge Advocate read the letter from Lieut.

Pinckney to Lieut. Wilkes, dated Dec. 6, 1239. Lieut. Wilkes read from his letter-book a copy of a lette dated Dec. 27, 1839 .

Lieut. Pickney insisted that the letter read could not in reply to the other, but to one of a subsequent date. Lieut. Alden recalled, but not examined, as the Court rose and adjourned to Saturday.

POLICE OFFICE-ASSAULT AND BATTERY WITH INTENT TO KILL.-This morning about 2 o'clock, after Michael Crown, clerk of Anthony Crown, of the corner of Anthony and Little Water street, had closed the grocery store preparatory to going to sleep therein, two black men knocked at the door, which being partially opened by him, they entered, when each of them asked for some drink, dried beef, cheese, &c. which were furnished them. They then

committed to prison to answer for the assault with intent to kill. Crown was very seriously injured, and considers him-self fortunate in escaping with his life.

ANOTHER FURIOUS ASSAULT .- A colored woman of infamous character named Sarah Kipp, this morning at the Five Points, made a farious attack with a razor on a colored man named George Cisco, cutting him terribly on his face, arms and body, so as to greatly endanger his life. She was arrested and ladged in prison, and he was taken to the City Prison Hespital to have his numerous wounds attended to by the physician. ARREST OF A COUNTERFEITER -A man calling his name

James Mudge, went this afternoon to the Exchange Office of Mr. James H. Thorpe, 212 Broadway, and requested Mr. Thorpe to exchange for him a \$500 bill, purporting to be of the Commercial Bank of Pennsylvania, at Philadelphia, but which had been altered from a \$500 bill of the Commercial Bank of Millington, Maryland. Mr. Thorpe sent the bill to Mr. Peck, a neighboring broker, to ascertain its character, and was soon informed that it was an altered bill. He then detained Mudge until officer McGrath, who had been sent for, arrived, when Mudge was conducted to the Police Office and committed to prison for examination.

LARCENIES.-John Donahoe was arrested and committee for stealing a keg of white lead worth \$3 from Messrs. Squire, corner of Rosevelt and Front-streets. Francisco Rode was arrested for stealing \$7 in money from Gilbert Zantz. They were both foreigners recently arrived, and both boarded at 102 Oliver-street. Rode was committed to

Is not the matter of unclaimed dividends and deposits in

our Banks a proper subject for Legislative enactments !-Why should not these funds become escheated to the Gov rement in the same way as the effects of persons dying without heirs? The amount is considerable, and going into he State Treasury, would relieve the people of the burden of taxation to some extent. We have not thought of this subject very fully, but it struck as that the suggestion was worthy of consideration. We are very sorry to learn that a well known and very

extensive concern for the manufacture of machinery was yesterday closed by the Sheriff. The pecuniary difficulties of the concern commenced we are informed some years since. The President of one of our Banks promised to this concern any amount of accommodations they desired from his Bank, for a consideration, the paying him a commission upon such loans. The consequence was that the concern extended their business incautiously and to a great extent. The Bank Commissioners upon examining this Bank dis covered that this concern were debtors to the amount of \$150,000. An investigation was the result and the President resigned his situation, and was forced to assume a portion of the debt. To secure himself he took a mortgage upon the immense personal estate of the concern alluded to, which has since been regularly renewed every year until the present, when the Attorneys of the President being also the Attorneys of the Bank, commenced a suit against him at the instance of the Bank for the assumed debt. Hereupon the President withdrew his business from these Attorneys, and the consequence was that the renewal of the mortgage was eglected. This coming to the knowledge of a large Sheffield house who held a judgement against them for \$20,000 they issued execution immediately and closed the concern up, thus securing their debt, which was before very doubtful. We regret very much that this enterprising concern should have fallen into difficulties, because they are very worthy men, and the stoppage will throw many out of employment. We have some reason to believe that the busi-uess of the concern will be resumed in a few days. We hope this will be the case.

OCUMENT No. 13.—Board of Assistant Aldermen, Joly 29th, 1842.
Report of the Select Committee on the subject of Naylor & Ewbank's Patent Timeed Lead Pipe, for the conveyance of the Croton Water. Presented by Mr. Scoles.

EDWARD WILLIAMS, Clerk. The Select Committee, to which was referred the annexed

REPORT:

That in addition to the written statements presented, the following scientific gentlemen appeared before your Committee, and were examined by them upon the matters submitted to their consideration: Drs. Chilton, Ellet, Gale and Griscom. Your Committee have alsa personally inspected the process of tinning the pipes. The opinions of these gentlemen were very clearly and positively expressed: they agree in condemning the use of ordinary leaden pipes for the conveyance of water as dangerous to health, in consequence of the highly poisonous character of the white for the conveyance of water as dangerous to health, in consequence of the highly poisonous character of the white crust of oxidized lead which is thus produced. They consider the use of leaden pipes as most dangerous when the water is remarkably pure. Dr. Ellet states that leaden pipes are used in the city of Edinbargh, where the water has certain mineral qualities that counteract the process of oxidization. He experimented with the purest water while residing in South Carolina, and found such a tendency to oxidization as satisfied him of the danger of using leaden places. The Corona water is very pure, and therefore the oxidization as satisfied him of the danger of using leaden pipes. The Croton water is very pure, and therefore the use of leaden pipes ought by all means to be avoided.

Dr. Chilton recently inspected the Croton water drawn from the leaden pipes, by which it has been introduced into the house of Mr. George D. Coggeshall, No. 421 Pearl-st., in this city, and found the water evidently polluted by the lead. All these gentlemen agree that tinning the inside of the pipes is an effectual protection. They also stated that it would be a protection, although some small portions of the lead should escape being covered—that the proximity of the tim would, from certain chemical causes, prevent oxidization of the lead. It further appears that the process of tinning strengthens the pipe, without diminishing its elasticity.

Messrs. Naylor & Ewbank inform your Committee that they are willing to furnish the Corporation of the City with their tinned leaden pipes, which are thus recommended by chemists of high reputation, at the same rate as the ordina-ry leaden pipes, the use of which they all unhesitatingly condemn. They would furnish them at from eight to nine cents per pound—in no case at more than nine cents per pound. From all the information obtained, and all the repound. From all the information obtained, and all the re-dection bestowed by your Committee, upon a subject of no little importance, as connected with the health and comfort of our citizens, your Committee have arrived at the follow-ing conclusions: That the use of the ordinary leaden pipes for the conveyance of water, particularly when as pure as the Croton, is decidedly dangerous, and therefore ou ht to be avoided. The danger would be less where the pipes are small in circumference and in daily use, and greate there is more extent of surface, and they have been permit ted to remain unused for any considerable space of time.— The internal coating of tin will be a secure pretection against the oxidization of the lead. The tinned leaden pipes of the petitioners are altogether superior to the ordi-nary leaden pipes, and deserving of public patronage.— Your Committee therefore recommend that these tinned

water into the public buildings, in preference to the ordina-ry leaden pipes.

Your Committee offer for the consideration of the Board the following resolution:
Resolved, if the Beard of Aldermen concur, That the Resolved, if the Beard of Aldermen concur, That the Joint Committee on the Croton Aqueduct be instructed to make use of Naylor & Ewbank's patent tinned leaden pipes for the conveyance of the Croton water into the public buildings, provided that the cost of the same shall not be greater than that of any other species of pipe which is equally safe.
